ER-5215M

A fabulous solution for any complicated environment

You can choose one among ER-5215M, ER-5240M and ER-5200M according to your requirements. ER-5215M and ER-5240M is the solution for retail and mid sized retail market. ER-5200M is the solution for a wide range of hospitality market. A great value is in the ER-5200M series for any complicated environments

Advantages

- **Clerk Interrupt and Check Tracking**

- Clerk Interrupt allows different operators to record rounds of drinks at various stages. Each operator can enter and add to checks or tables in a restaurant. Ability to separate checks by splitting items from a customer bill or to add checks to an existing bill

- **High Visibility with LCD display**

- Backlit LCD shows all transactions at a glance. 16 Char. 2 lines LCD allows you to adjust operator's visibility in dim store conditions

- **Easy Paper Loading**

- **Memory Allocation**

- Users can optimize their memory size. Anyone can easily change PLU, Clerk, and Check table size using this unique function

- **Mix & Match Table**

- This function uses an automatic discount table for easy facilitation of special promotions
